

Filler Masterbatches

Product Code	Description	Carrier	Active Content	CaCO3	Application	TDS	MSDS
PE Fillers							
CCA F2020	Filler MB	LLDPE	82% +/-2	2T	For Film, Sheet, woven, Blow and Injection		
CCA F2021	Filler MB	LLDPE	80 % +/-2	2T	For Film, Sheet, woven, Blow and Injection		
CCA F2024	Filler MB	LLDPE	80% +/-2	2T	Thin Film and Lamination		
CCA F2026	Filler MB	LLDPE	78% +/-2	2T + Talc	Furniture and House hold articles		
CCA F 2030	Filler MB	LLDPE	76% +/-2	2T	Blow Molding Application		
CCA F2010R	Modifiller MB	LLDPE + POE	78% +/-2	2T	Works as impact Modifier for molding and Woven sack application		
CCA F2005	Natural Filler MB	LLDPE	78% +/-2	Talc	For Woven Sack and Film applications		
PP Filler MB							
CCA F4004	White Filler	PP	68+8% +/-2	2T + TiO2	Molding Application		
CCA F4007L	Filler MB	PP	82% +/-2	2T	Lamination application for Woven Sack and Non-woven Fabric		
CCA F4022	Filler MB	PP	80% +/-2	1T	For low denier Woven and Non-Woven Application, premium Molding applications		
CCA F4023	Talc Filler MB	PP	60% +/-2	2T	Woven Sack Application		
CCA F4024	Filler MB	PP	82% +/-2	2T	Woven sack and Non-woven Application.		
CCA F4024M	Filler MB	PP	82% +/-2	2T	Molding Application		
White and Bluish White Fillers							
CCA F2035	Bright White Filler MB	LLDPE	68 %	2T + TiO2	Designed for Blow Molding White Filler for enhancing the white Colours		

Filler Masterbatches

CCA F2036	Dairy White Filler MB	LLDPE	74 %	2T + TiO2	Designed for Injection Molding White Filler for enhancing the white Colours		
CCA F4025	Bluish White Filler MB	PP	82 %	2T + Shiner + UMB	Designed for Woven sack
